SUBJECT: Action on Applicants

I am interested in reviewing applicants folders who you think are potential employees within your section. For those who you propose to recruit for immediate overseas assignment, I am not especially interested. Please procede but report the actions which you have taken.

[REDACTED] certainly seems to be worth an interview. In the case of [REDACTED] I notice that he worked at Walter Reed Army Medical Center for some time and I would think that a call to [REDACTED] who was his immediate supervisor might be worthwhile. Otherwise he sort of looks like a candidate too. On [REDACTED] I am going to be here every night, probably about 5:30 if you would like to discuss them with me then fine. If there is no particular hurry, it looks like I will be off active duty about Tuesday or Wednesday of next week.
